

Exhibit 99.1**Net Asset Value**

VistaOne, L.P. (the “Fund”) calculates net asset value by deducting all accrued fees, expenses and other liabilities of the Fund from the fair value of investments, determined in accordance with valuation policies and procedures approved by the Fund’s General Partner, and other assets and receivables held by the Fund. The Fund’s transactional net asset value (“Transactional NAV”) is calculated for purposes of establishing the price at which subscriptions and repurchases of the Fund’s limited partnership units (the “Units”) are made. Transactional NAV per Unit differs from the Fund’s net asset value per Unit for financial reporting purposes as determined in accordance with accounting principles generally accepted in the United States of America (“GAAP NAV”).

The following table provides details of the major components of the Fund’s Transactional NAV as of March 31, 2026⁽¹⁾:

The Manager currently expects to begin such reimbursement period no earlier than October 1, 2026 or such later time as determined by the Manager.
- (3) Servicing fees are charged to Class A-B, Class A-D, Class A-S, Class B, Class D and Class S Units. Servicing fees are recognized as a reduction to Transactional NAV on a monthly basis as such fees are accrued. For GAAP NAV, the Fund’s cost of unitholder servicing fees are accrued for the estimated life of the Units as an offering cost at the time the Class A-B, Class A-D, Class A-S, Class B, Class D and Class S Units are sold.
